DIRECTOR'S STATEMENT

The Pursuit of Red X is a dramatic crime musical about a serial killer in New Orleans.

I wanted to create a musical unlike any other set in modern times. The story weaves in many different directions, while surprising audiences with its unpredictable outcomes.

In addition to being the director, I am also the writer, editor, and cinematographer. It was a challenge to myself to create something with big moments and outstanding climaxes.

It has been a pleasure taking this journey with a few of my closest friends. I hope you enjoy watching this film and listening to this soundtrack as much as we did in creating it.

CREATOR OF *THE PURSUIT OF RED X*

SHORT SYNOPSIS

A New Orleans serial killer must choose between the life he knows and the life he wants.

LONG SYNOPSIS

In the city of New Orleans during the 1980s, crime creeped around every corner. The police fought street criminals and internal corruption.

John, a young detective forced into a leadership role, chases a serial killer identified as “Red X”.

Jack, John’s partner and friend, knows more about the Red X case than any one else. As John closes in on who Red X is, Jack does what he must to protect a secret.

Can Jack continue to protect his secrets? Can he continue to hide his secrets from his love, Kate? Will a new detective, Russell, find out the truth based on the evidence on hand?

The Pursuit of Red X is a musical unlike any other, taking the audience on an unpredictable journey through the underbelly of New Orleans.

PRODUCTION

The Pursuit of Red X was created by a group of friends who had the simple goal of creating a movie. The idea was that they had created short before - So why not create a bunch of shorts that happen to work together? That was the mindset that helped them get to the finish line. The production lasted longer than it should have, due to conflicting schedules and location, but the entire cast agreed that the film must be completed!

It was a difficult journey to make without the help of a budget. Wardrobe was purchased at thrift stores and equipment at discounted rates. Everyone's time was donated free of charge. It couldn't be done without the help of such a talented and generous group of people.

Jesse Seidule wrote the script and and created music in *The Pursuit of Red X*. There are a total of 19 songs in the movie. Each song perfectly reflects the mood of the moment, while having the ability to control the tone of the movie as a whole.

He shot it with a Canon XH-A1 camera producing a 1080i image at 1440x1080. Editing was done in Apple's Final Cut Pro 7. The editing of the movie was done by Jesse Seidule with the assitance of Tim Bridgewater.
